

River Soccer Club Technical Academy

RSC's Player Development Program (PDP) offers a new and innovative way of training young soccer players with top quality soccer instruction. Participants will enjoy a 12 session program that is designed to develop the player and the athlete! This program is designed to give dedicated players the opportunity to train outside their normal team dynamic. Allowing for inter action with another coaching resource outside of their team coach. The program is ideal for the motivated soccer player from travel soccer, school soccer or recreational players looking to improve and grow their technical ability on the ball. This an economical opportunity for players who want to further develop their soccer and athletic foundation skills.
